## GOES IN DEBT $5,000

CITY MAKES A LOAN TO PAY RUNNING EXPENSES

## CREDIT GENERAL FUND

**Public Service Commission Asks the Council to Report On Proposed Raise of the Light and Power Rates**

City employees will get their salaries for March and bills that were held up at the last meeting of the council for want of funds will be paid today, Mayor W. O. Garrett and the members of the finance committee having arranged for a loan to the city in the sum of $5,000. An ordinance authorizing the transaction was introduced at a special meeting of the council last night and was adopted without dissent. The loan ordinance provides for the borrowing of $5,000, $2,500 from the Farmers Trust Co., and a like amount from the Nodaway Valley bank, to become due and payable on December 1, 1918, with six per cent interest. Authority was given the mayor and city clerk to execute notes for the amount. The money will be placed to the credit of the general fund.

The council heard a communication from the public service commission asking that a report be made on the proposed increase in rate by the Maryville Light, Heat & Power Co., explaining that opportunity would be given to file objections to the proposed rate together with reasons, if any, why it might be undesirable. The commission asked that it be officially informed by the city as to the status of the matter and it was turned over to the council committee on lights for investigation and report.

Mayor Garrett informed the council that the township board was about to improve and grade the road running north from the Wabash tracks at the north end of Depot street, following a plan by the farmers living along the road to oil it and keep it in first class condition during the summer. In view of the fact that the road inside the city limits from the tracks south to the Burlington depot was badly in need of repair and that the township board might do the work, the streets committee was authorized to take the matter up with the board so that the work on both ends of the road might be done at the same time.

The council by a vote of seven to one voted to issue a license to Wm. Symons, proprietor of the New Linville hotel, to operate two pool tables. The application was turned down by the old council.

On report of the auditing committee the report of Tax Collector Elmer Barrock was accepted and filed for record.

The city attorney was authorized to prepare an ordinance regulating the installation and quality of pipe in water connections, an old ordinance having been found to be inadequate.

## WORK HARD FOR LOAN

REPORTS AT HEADQUARTERS ARE ENCOURAGING TODAY

## NODAWAY NOT IN DOUBT

**Last Two Weeks of Campaign Will Be Devoted to Rounding Up Delinquent Townships, If Any**

With three townships in the county having already exceeded their quotas in the third Liberty Loan, Chairman W. C. Pierce today stated that subscriptions were coming in rapidly and that there was not the least doubt about the county going over the top, the big question now being, how much will the quota be exceeded.

"Reports this morning are still encouraging and leave absolutely no doubt but what we will 'go over,'" said Mr. Pierce. "Monroe, Hopkins, Hughes and Grant are already 'out and gone,' and there are several others that are nearly, if not quite, over.

"At the end of two weeks from the opening of the campaign," said Chairman Pierce, "we will go carefully over the returns, complete and estimated, and then devote our time (the last two weeks of the campaign) in an effort to awaken the people of any township or townships that might at that time be behind. I do not anticipate there will be any such. I do not think there is any township in this county that wants any other parts of the county to bear their burdens, and as the governor has called upon this county for a certain amount and that amount based on our ability to pay, so have we in turn divided Nodaway county's quota between the various townships on a basis absolutely equitable, and I have, as I say, no doubt but what every township will come fully up to the mark and subscribe for their full quota, and we are going to rest on this supposition until the end of two weeks, and then take such means and measures in the delinquent townships, if any there may be, as will bring them up to their full quota."

John A. Fields, chairman of Grant township, reports they have gone $15,000 over their quota and that they are sure of $38,000 or $40,000 total sales before the drive is over. So far they have sold 300 bonds. In four or five of the school districts he says they averaged selling to 90 per cent of the people.

Reports from most of the other townships are equally encouraging.

## THROW GERMAN OUT

SCHOOL BOARD ORDERS IT BARRED FROM PUBLIC SCHOOLS

## INCREASE IN SALARIES

**All Teachers Are Given a Raise—Prof. L. E. Zeigler Is Chosen Principal of the High School**

German is a dead language so far as the Maryville school board is concerned, and it will no longer be taught in the public schools. At a meeting of the board last night it was decided to drop the study of German from the High School course and it is contemplated to replace it later with a complete business and commercial course. The class in German this half-year has numbered more than 125. Owing to the fact that they still receive but a half year's credit for work done it was deemed advisable to omit it next year. Miss Laura Hawkins is instructor in German.

Besides re-engaging nearly all of the present corps of teachers in both high school and grade schools a raise of salary, approximating about five per cent, was voted for every teacher.

The following appointments were made by the board:

High School: Principal, L. E. Zeigler, salary $1,000; Mr. Zeigler is now science instructor.

Miss Alicia Keeler, English, $90.
Miss Laura Hawkins, English, $90.
Miss Mabel Wells, Latin, $85.
Miss Lois Halley, history, $82.50.
Miss Dorothy Hann, mathematics, $82.50.

Miss Anna Bainum who is now substituting for Miss Dora Carpenter, domestic science teacher, who has a year's leave of absence, being connected with the state food administration, is retained in that position until Miss Carpenter returns. In the event she does not ask for her place back Miss Bainum will be regularly employed.

Prof. McGee, principal, Prof. Crandall, teacher of English, and Prof Shultz, teacher of manual training and athletic coach, were not applicants for re-instatement, all making preparations to be called to the colors within a short time.

In the grade school the following teachers were named, all getting increased salaries:

Miss Mary Ford, $80.
Miss Edna Bonewitz, $75.
Miss Nell Hudson, $75.
Mrs. Lisetta Gray, $65.
Miss Bertha Northcutt, $70.
Miss Cora Gehr, $65.
Miss Dale Hulet, $65.
Miss Alice Worst, $70.
Miss Lucile Holmes, $60.
Miss Ruby Irvin, $60.
Miss Ada Albert, $75.
Miss Hogue, $65.
Miss Mamie Kane, $75.
Miss Julia Denny, $75.
Miss Ella Hazelrigg, $65.
Miss Helen Wamsley, $60.
Miss Dena Hartman, $75.
Miss Ilene Kemp, $60.
E. O. Boone, Jr., $70.

The only remaining places to be filled by the board are teachers for the manual training class and an athletic coach.

## GIVE PHYSICAL TESTS FREE

Members of the Home Guards will be examined free by the physicians of the city when they are required to take the physical tests before being mustered into service. The announcement is made today by the physicians, some of whom are members of the Guard.

The next meeting for drill will be held Friday night at the Armory and it is expected officers will be chosen for the organization. With but few exceptions, all who signed the petition, asking permission to organize a company of Home Guards, have also filled out the application blanks and will take the physical examination.

## ROUNDED UP DISLOYALISTS

Milwaukee, April 10.—More than one hundred federal agents and fifty automobiles raided some of the so-called disloyal centers of the city today and captured more than fifty alleged disloyalists who are alleged to have violated the president's proclamation, failing to register as alien enemies and to have made disloyal, traitorous speeches. Many more arrests are expected.

## STANDARD TO BUILD

WILL ERECT SERVICE STATION AT FOURTH AND BUCHANAN

## COUNCIL GIVES PERMIT

**Chief of Police Instructed to Demand Vehicle Tax of Delinquent Owners —Trash Haulers Are Warned**

The city council at a special meeting last night gave permission to the Standard Oil Company to erect a filling and service station at the corner of Fourth and Buchanan streets on lots owned by A. S. Robey adjoining the Sewell garage on the west. The new building will be along the same lines as hundreds of others throughout this and adjoining states. I. V. Warren, assistant manager of the company at the St. Joseph branch, was present at the council meeting and explained the uses to which the station will be put. A requirement of the ordinance is that the building shall conform to all the city ordinances and be conducted according to city regulations.

Mr. Warren, in speaking of the new building, said that it would be of brick and stucco, of pleasing architectural design and would be a distinct ornament to the city. A covered driveway will afford protection from rain, while free air and water will be provided as well as free phones for the use of patrons. A rest room for ladies while waiting for cars to be filled will also be a feature. Work will begin on the new service station at once, Mr. Warren said.

That the council intends to enforce the city vehicle tax ordinance was made evident at the meeting last night when Chief of Police Purl Edwards was instructed to secure a list of names of all delinquents and demand that the tax be paid. It has been due since January 1. Failure to pay will result in fine and arrest. It developed that a number of teamsters and other vehicle owners had refused to pay, clarging that favoritism was shown in permitting certain vehicle owners to operate without paying the required tax, the specific case of L. R. Holt, implement dealer, being brought to the council's attention. It seems that Mr. Holt paid no city vehicle tax last year under the ordinance and refuses to pay this year, claiming that he is outside the city and therefore his vehicles are not amenable to the city tax. Chief Edwards was instructed to demand of Mr. Holt at once that the license be paid. In the event it is refused the city will make a test case of it, although the courts have held in parallel cases the city is within its legal rights to demand such a tax.

Trash haulers and teamsters who litter the streets with refuse and who haul ashes, manure and other waste in wagons that are not sufficiently covered will also be instructed that the present method of hauling will not be permitted and failure to observe the regulations will result in arrest and fine. Chief Edwards was instructed to warn all teamsters doing this class of hauling of the regulations.

**Today's Donations Include Many By Local Merchants—Live Stock and Merchandise Is Being Added**

No matter what you have to give, if it is salable the committee can use it. The money received from the sale will be used for buying material to keep the Red Cross women at work. Forty visiting delegates are here attending the St. Joseph Presbyterial Missionary Society, which is in session at the Presbyterian church.

Mrs. Tracy's talk was mainly along the work done by both the home and foreign missions, and the reasons of Missionary boarding schools. ## A QUAKE VISITS WASHINGTON

**Shock Was So Severe That Residents Believed It Was Caused by a German Bomb Plot**

Washington, April 10.—Washington today had something besides war to talk about. The unusual phenomenon of an earthquake which visited this section of the country last night was still the chief topic of conversation and the possibility of a recurrence tremor found many still agitated. It was the first earthquake shock felt here since 1886. So severe was the quake at first there was a general impression that the shock was caused by a German bomb plot.

Miss Eva Ashford had charge of the meeting. The subject for the afternoon was "Christian Stewardship." Mrs. Henry Thorp delighted the members with a reading, "Miss Melvina Buys a Liberty Bond." The Amoma class of the Baptist church will hold their regular meeting on Thursday night at the church parlors.

To drive a tank, handle the guns, and sweep over the enemy trenches, takes strong nerves, good rich blood, a good stomach, liver and kidneys. When the time comes, the man with red blood in his veins "is up and at it." He has iron nerves for hardships—an interest in his work grips him. That's the way you feel when you have taken a blood and nerve tonic, made up of Blood root, Golden Seal root, Stone root, Cherry bark, and rolled into a sugar-coated tablet and sold in sixty cent vials by almost all druggists for past fifty years as Dr. Pierce's Golden Medical Discovery. This tonic, in liquid or tablet form, is just what you need this spring to give you vim, vigor and vitality. At the tag end of a hard winter, no wonder you feel "run-down," blue, out of sorts. Try this "Medical Discovery" of Dr. Pierce's. Don't wait! To-day is the day to begin! A little "pep," and you laugh and live.

The best means to oil the machinery of the body, put tone into the liver, kidneys and circulatory system, is to first practice a good house-cleaning. I know of nothing better as a laxative than a vegetable pill made up of May-apple, leaves of aloe and jalap. This is commonly sold by all druggists as Dr. Pierce's Pleasant Pellets, and should be taken at least once a week to clear the twenty-five feet of intestines. You will thus clean the system—expel the poisons and keep *well*. *Now* is the time to clean house. Give yourself a thorough house cleaning.

## UNFURLED A SERVICE FLAG

The play, "Pa's Picnic," given last night at St. Mary's hall by the young people of St. Mary's church, was a splendid success. Every seat was sold and standing room was well taken up. Besides the play there were a number of side shows which pleased the fancy of the crowd. Sandwiches, coffee and other refreshments were sold. More than $82 was cleared over and above expenses.

The most interesting feature of the evening was the unfurling of the service flag in which were nine stars. This followed a patriotic talk by Rev. Father Odilo, in which he told why the American flag was held sacred by the American people. Father Odilo explained the meaning of both the stars and stripes and said we should hold only the Lord more sacred than our flag and country.

Assisting Father Odilo in the unfurling of the service flag was the Goddess of Liberty, represented by Miss Cleona Kirch; Uncle Sam, represented by Cleo Yehle, and four tiny Red Cross nurses, all attired in uniform. The Red Cross nurses were Beatrice Hansen, Edna Thompson, Mary Riffe and Dorothy Busby.

**Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound.**

Key West, Fla.—"For five years I suffered from irregularities, with terrible pains and an awful weakness in my back. The doctor gave me different medicines but they did me no good. A friend asked me to try Lydia E. Pinkham's Vegetable Compound and I found it to be the best medicine I ever tried because it made me well, and I can now do my housework. I am telling my friends about it."—Mrs. J. M. CAMUS, 726 Caroline St., Key West, Florida.

Many women at some period in their life suffer from ailments peculiar to their sex and which in most cases may be readily relieved by this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound, just as Mrs. Camus found it helped her after suffering for years and trying everything else in vain.

If you have any annoying symptoms you fail to understand, write Lydia E. Pinkham Medicine Co., Lynn, Mass. The results of their 40 years experience in advising women on this subject is at your service.

# Lend Him a Hand

## *Five Hundred Thousand American Soldiers in France*

We dare not delay the VICTORY now. American lives are at stake, our own safety, the safety of the whole world. If we are not to prolong the slaughter and the suffering, if we are not to risk defeat or an inconclusive peace, we must act quickly; we must put forth our every effort now.

The army is doing its part. Five hundred thousand American soldiers are in France today. There will be more tomorrow. And more the day after. We are going to send an army large enough so that when we strike, with our Allies, we can drive the German hordes back across the Rhine—so that we can win the decisive VICTORY that will make American freedom safe, and establish a just and lasting peace.

But the whole nation must take part. Our armies in France are looking to us to furnish them in ever greater abundance, the ordnance, the munitions, the supplies that will make their VICTORY possible. We must not fail them.

**The Third Liberty Loan is our share in the winning of this war. Upon it depends the safety and success of five hundred thousand American soldiers in France.**

## Don't Let Catarrh Drag You into Consumption

**Avoid Its Dangerous Stage.**

There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and the hawking and spitting and other distasteful features.

The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by sprays, inhalers, atomizers, jellies and other local applications.

S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source, and removes the germs of the disease from the blood. Get a bottle from your druggist today, and begin the only logical treatment that gives real results. You can obtain special medical advice without charge by writing to Medical Director, 27 Swift Laboratory, Atlanta, Ga.

## At This Stage of the Tractor Business

You should buy a tractor that has an established reputation—one that you can see in operation on your neighbor's farm, and one that not only gives satisfaction to you in usefulness, but that you can sell in case you have no further use for it.

# Repairing Inner Tubes

Cold patches make slow leaks that keep your tire about half inflated.

Any kind of a vulcanized patch except one cured WITH STEAM is very injurious to your tube.

All inner tubes are cured by steam in the course of manufacure. It is the only kind of heat that will vulcanize rubber and not injure it.

Our vulcanizing equipment includes a large steam tube plate. We can put any kind of a repair in a tube so that it will not leak or come loose, nor in any way injure the tube.

We repair ordinary punctures, also tubes with large blowouts, long slits, tubes torn in two, put on new valve pads and stems.

We get your work out PROMPTLY.

**SUNDAY TUBE WORK**—We are prepared to take care of your tube repairing on Sunday as well as during the week.
